# Dow in Texas

# Texas Operations Facility Overview

Texas Operations (TX Ops) site is a large manufacturing site consisting of Plant A, Plant B and Oyster Creek Site (OCS) and the storage facility (Stratton Ridge Salt Dome Operations) spread out over 5,000 acres in Southern Brazoria County.

The site is a World Scale Manufacturing Complex for the production of Basic, Fine, and Specialty Chemicals, Hydrocarbons, Plastics, Specialty Polymers, and Agricultural Chemicals.

# Role

# Examples of Engagement

- Water Stewardship “Dow is committed to technology development, advocacy, partnerships and collaborative action to improve and protect its watershed health and viability. (positive)” 2024 Intersections report
- “Dow continues to champion Operation Clean Sweep® (OCS)... Dow has integrated OCS principles into our global management systems”
